| C/Supt. Baylin  | 16:25 | SB | C/Supt Baylin advised that if he (C/Supt Peter Ryan) received any Divisional requests for usage that he should advise Silver Command (NHQ) to ensure deconfliction can take place and that consideration of all potential priorities is complete before releasing to Divisions. Currently Ottawa (NCR) is the priority (advised to C/Supt Ryan by C/Supt Baylin)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| C/Supt. Paradis | 20:56 | SB | C/Supt. Paradis provided an update to Gold and C/Supt. Baylin:<br>"At about 8pm, I received a call from the Crops Officer in C div. He stated that the SQ had received 2 requests for their TSG groups to address the Ottawa situation. One from the RCMP and one from the OPP.<br>I gave him a brief synopsis of our conversation with C/Supt. C. Pardy of the OPP and that neither our office nor Mike O'Beirne's office had made any requests for SQ resources at that time (5pm). Upon hearing this, Pardy stated that the OPP would make a formal request through their Commissioner to the SQ.<br>Supt. Roach stated that there had been 2 separate requests and he was going to look into the request(s) further to determine who on the RCMP side had made the request. Martin just called me back and there was NO RCMP ask. The correct process was followed and the ask went through the OPP Commissioner.<br>The CO of C Div has been briefed." |
